

HOW TO ADD AN EXISTING VENTRA CARD TO YOUR DEVICE

TRANSCRIPTS

ADA VO: A white triangle slides from the bottom right corner on to a triangle filled screen with words “How to add an existing Ventra Card to your device” and then transitions to showing the Ventra app icon on an Android device.

GM VO: Introducing Ventra Card on Google Pay. The easier way to pay for CTA and Pace rides.

ADA VO: Then a person begins interacting with the new Ventra app on their phone for the following steps.

GM VO: To get started, open the Ventra app.

GM VO: Tap on “Ventra Cards” to view your existing cards. Select the Ventra Card you want to add to Google Pay and then tap ‘Add to Google Pay’ button.

GM VO: Follow the prompts. And you’ll see a confirmation your Ventra Card has been added to Google Pay. And you’re all set.

ADA VO: The person opens the Google Pay app to showcase the built-in Ventra Card features and functionality.

GM VO: But that’s not all! With Google Pay, you can also view your transit balance and active passes, contact Ventra and quickly link to the Ventra app to add value or passes.

ADA VO: Screen animates with colorful triangles revealing a white screen where animated scissors cut up a Ventra Card on screen.

GM VO: We suggest you cut up and toss your plastic Ventra Card, as it will no longer work.

ADA VO: Screen once again animates with colorful triangles with words “Tap and Go with Ventra on Google Pay” and an Android device slides into frame. The Ventra and Google Pay logos are also on screen with the web address VentraChicago.com/GooglePay.

GM VO: Now, you are ready to tap and go with your device.
