

INTRODUCING THE VENTRA APP

TRANSCRIPT:

Hey, did you know that now you can do all things CTA, Pace and Metra with just one App?

Introducing the Ventra App. An app that helps improve the way you get from here to there.

Now you can add value or passes to your Ventra Card.

Buy and use Metra mobile tickets on the go.

Get push notifications for things like balance alerts and autoloads. And even see real-time arrivals. All while on the move.

Its like having CTA, Pace and Metra with you everywhere you go.

The new Ventra App.
